

COREY GUNDERSON

TS/SCI CLEARED | POWER BI & POWER PLATFORM DEVELOPER | CYBER & DOD PROGRAMS

[LinkedIn](#) | [Portfolio](#)

PROFESSIONAL PROFILE

U.S. Army Major and digital transformation leader with 13+ years delivering enterprise analytics, automation, and software capability initiatives across U.S. Army programs. Experienced building Power BI reporting solutions, Power Apps, and automated workflows that improve operational visibility, decision-making, and process efficiency. Proven ability to bridge technical teams, operational stakeholders, and acquisition processes to deliver scalable solutions, including approximately \$4M in ITSM cost savings through automation initiatives.

PROFESSIONAL EXPERIENCE

Assistant Program Manager & Digital Transformation Lead

Jan 2021 – Mar 2026

Project Manager for Defensive Cyber Operations (PM DCO)

- **Served as Product Owner for a cyber analytics and tools portfolio** supporting Defensive Cyber Operations, translating ARCYBER requirements into prioritized roadmaps, user stories, and development backlogs.
- Led development and deployment of the DCO Tools platform, integrating **Power BI reporting solutions**, workflow automation, and collaboration capabilities that improved mission request visibility and portfolio management, contributing to approximately **\$4.5M in cost avoidance**.
- Coordinated capability delivery through **DevSecOps pipelines (Forge and Armory)**, aligning releases with mission timelines and enabling rapid deployment of analytics and data-driven capabilities.
- Partnered with engineers, platform administrators, and operational users to develop and operationalize **Power BI dashboards, reporting tools, and enterprise data platforms** supporting mission reporting, decision-making, and cross-organizational coordination.
- Integrated **Army acquisition and PPBE processes with product delivery** to ensure cyber analytics and software capabilities remained fundable, sustainable, and aligned with ARCYBER priorities.
- **Drove adoption through stakeholder engagement**, user training, and feedback loops, ensuring delivered analytics and automation capabilities were integrated into daily cyber mission workflows.

Joint Operations Advisor & Knowledge Manager

Jun 2020 – Oct 2020

Military Advisor Group – Iraq, 82nd Airborne Division

- **Advised senior U.S. and coalition leadership** on operational planning, mission execution, and cross-organizational coordination across the Baghdad area of operations.
- **Led synchronization between coalition forces and Iraqi Army** elements, aligning reporting, operational priorities, and mission planning across partner organizations.
- Architected and deployed a **SharePoint-based collaboration and knowledge management platform** that enabled secure information sharing across multinational staff sections and distributed mission teams.
- Developed **operational dashboards and reporting frameworks** that improved situational awareness and accelerated leadership decision-making during time-sensitive operations.

IT Project Manager (Company Commander)

Dec 2017 – Jun 2020

50th Expeditionary Signal Battalion, 35th Signal Brigade

- **Commanded three communications companies (Headquarters, Enroute Communications, and Heavy Signal)** leading a 140-person technical organization delivering expeditionary communications and network infrastructure supporting XVIII Airborne Corps operations.
- **Directed lifecycle management and operational readiness of \$85M in mission-critical communications systems**, ensuring secure, resilient connectivity and compliance with Army policy and operational standards.
- **Led stand-up of a new expeditionary communications capability**, guiding the organization from concept through deployment while establishing operational procedures, training programs, and sustainment processes.
- **Executed modernization of legacy communications infrastructure**, transitioning units to next-generation network platforms while coordinating equipment fielding, system integration, and workforce retraining.

Network Operations Lead

Feb 2017 – Dec 2017

50th Expeditionary Signal Battalion, 35th Signal Brigade

- **Directed enterprise network operations supporting distributed teams across multiple regions and time zones**, ensuring reliability and oversight of mission-critical communications infrastructure.
- **Established and led a centralized network operations center**, integrating data from geographically dispersed elements to provide real-time situational awareness and consolidated operational reporting.
- **Developed governance frameworks and performance dashboards** to track readiness, mission status, and resource allocation across the enterprise.

IT Project Manager (Battalion S6)

Dec 2015 – Feb 2017

1st Stryker Brigade Combat Team, 1st Armored Division

- **Directed enterprise IT services and communications infrastructure** supporting 450+ personnel, ensuring secure, reliable network operations across mission command and administrative systems.
- **Led fielding and integration of next-generation network capabilities**, enabling secure data exchange and improved connectivity across distributed operational environments.
- **Managed cybersecurity compliance and information assurance programs**, reducing security incidents by approximately **75%** while safeguarding sensitive operational data.
- **Developed a SharePoint-based knowledge management and service platform** integrating workflows and reporting tools that improved response times and operational coordination across the organization.

Assistant Project Manager (Executive Officer)

Aug 2012 – Jan 2015

15th Sustainment Brigade, 1st Armored Division

- **Managed logistics, maintenance, and training programs for a signal company**, increasing equipment readiness by **25%** through improved tracking systems, reporting processes, and operational standardization.
- **Directed administrative operations and regulatory compliance programs**, achieving a **100% inspection pass rate** while implementing structured documentation and accountability processes.
- **Developed SharePoint-based automation tools** that standardized operational procedures and improved information sharing across the organization.
- **Built VBA-driven tracking systems** that provided leadership with real-time visibility into training readiness, operational status, and resource allocation.
- **Served as second-in-command of a satellite communications company supporting 4,000+ users**, coordinating personnel, resources, and mission execution to sustain reliable communications services.

CERTIFICATIONS

- Microsoft Certified: Power Platform Developer Associate (PL-400) – Exam Scheduled March 2026
- PMI Project Management Professional (PMP) – Exam Scheduled April 2026
- CompTIA SecurityX (formerly CASP+) – Certified March 2026
- DAWIA Program Management Level II – Certified 2021
- DAWIA Contracting Management Level II – Certified 2021

TRAINING

- Army Acquisition Engineering Test & Evaluation Course (AAETE) – 30 academic hours
Systems Test & Evaluation • Verification & Validation • Operational Test Planning • Data Analysis
- Army Intermediate Contracting Course (AICC) – 120 academic hours
FAR Compliance • Contract Administration • Source Selection • Cost Analysis • Government Procurement
- Army Acquisition Professional Course (AAPC) – 342 academic hours
Acquisition Lifecycle Management • PPBE Planning • Systems Integration • Risk Management • Capability Fielding

TECHNICAL SKILLS

Business Intelligence & Analytics

Power BI dashboards
DAX calculations
Semantic data models
Data visualization
Enterprise reporting
Operational analytics
Performance metrics

Power Platform Development

Microsoft Power Platform
Power Apps development
Power Automate workflows
Power Fx
REST API integration
Dataverse & SharePoint
Agile development

Data Platforms & Tools

SQL & relational databases
Data warehousing & analytics
Microsoft 365 ecosystem
Git version control
DevSecOps (Forge, Armory)
Requirements analysis
Technical documentation

EDUCATION

MBA – Engineering Management

University of Alabama in Huntsville — Huntsville, AL | 2023

M.A. – Information Technology Management

Webster University — St. Louis, MO | 2016

B.S. – Digital Media

Eastern Michigan University — Ypsilanti, MI | 2012
